

Little Birch Parish council

Ward member report, September 2018

Roads

Over the Summer I took Barry Durkin (Cabinet, Roads) and two BBLP employees up to Little Birch road and also some huge potholes up near Caldicott farm on the Little Birch to Aconbury road – this was to highlight the poor state of the roads in the area. I'd be interested to hear about other roads of similar standards.

Aconbury shepherds huts

I had some interesting conversations over the summer helping a young couple from Aconbury obtain planning permission for their shepherds huts, occasionally Herefordshire council's rules can seem confusing to those not involved and on the occasion I helped common sense to prevail.

General update

It's been that quiet time of the year over the Summer holidays where many council employees take time off and Parish Councils enjoy an annual break. As such there is very little to report other than a quick reminder about the annual budget consultation about how we raise and spend tax payer money.

To take part go to www.herefordshire.gov.uk/budgetconsultation

Apologies

I'm in London on business on Wednesday and therefore unable to attend the September meeting.
